

Excavator

Total Marine Services can call on a 6 and 8 tonne excavator to assist with projects. These are typically utilised in general civil excavation or as a drilling rig.

The excavator can either be mounted on a barge for marine piling work or based on land.

Fork Hoist

Total Marine Services can call on 3 fork hoists to assist with projects. The 10t fork hoist pictured above can be mobilised in an all terrain situation which is ideal on construction sites.

In addition to the all terrain hoist Total Marine Services can call on the use of a 4t and 2t fork hoist.
